NEGATIVE VARIATIONS ////

VARIATIONS FOR DARK/PHOTO BACKGROUNDS

If placing the World Backup Day Logotype on a photo or dark background is unavoidable, the negative versions of the logo must be used.

- Ensure the logo is clearly readable against the chosen photo.
- If a solid color background is required, do not use any color other than #108FCF (C38 M31 Y0 K0).
- Don’t place the logo above busy or complicated areas of an image.
COLORS

The official color scheme for the World Backup Day Visual Identity System.

- Don't adjust the lightness, darkness, hue or saturation of any color shown.

These colors are a key component of the World Backup Day identity and may not be modified in any way.
Here are some the typefaces in the World Backup Day visual identity system.

**KNOCKOUT BY HOEFLER & CO.**

- used for the logo.

**DOSIS SEMIBOLD**

- used for slogans and subtitles, only in ALL CAPS

Clear Sans

- used for body copy

The use of Knockout other than in the logo is strongly discouraged. Dosis is available for free from impallari.com/dosis.
DO’S AND DON’TS

DO

• Do leave a healthy amount of space around the logo so that it has some room to breathe.

• If the logo must be used on top of a colored background (#108FCF preferred) or photo, please use the negative logo ONLY.

DON’T

• Don’t place the logo on top of contrasting colors. When using a solid colour background, the logo must be placed on white or #108FCF only.

• Don’t use the logo above backgrounds that are too busy, dark or light to display the logo accurately.

• Don’t rotate or skew the logo.

• Don’t add effects or embellishments such as drop shadows or beveling.
